

Title 24 JA8 Compliant Products

I Description

California's Title 24 energy code is designed to reduce wasteful and unnecessary energy consumption in newly constructed and existing buildings. JA8 is the revision of Title 24 which includes lighting. JA8 encompasses indoor and outdoor lighting in new construction, renovations, and additions to both residential and non-residential buildings. This certification requires that light sources are high in efficacy and possess a CRI of 90 or above. Below is a list of Kelvix's compliant products.
