# FX3D

Mounting Clip Installs

⚠ SAFETY PRECAUTIONS

PRODUCT MODIFICATIONS
Product is NOT to be modified in the field. Modifications will void ETL listing and warranty.

DAMAGE
Remove from power source immediately if any damage is found in the LED strip or cabling.
CABLE HANDLING
The first 2.36" (60mm) of the cable should maintain its natural state before any bending occurs.

2.36"

KELVIX ACCESSORIES
The use of third-party accessories must be pre-approved by Kelvix. Failure to do so will void manufacturer warranty.

5 YEAR WARRANTY

SECURE CONNECTIONS
Ensure all electrical connections are insulated and secure before applying power.
LOCK

PROPER CONNECTIONS
Connect power feed to appropriate power source or controls.

BENDING LIMITS
Do not bend product smaller than bending diameter: 9.40" (300mm).

9.40"

POWER TESTING
Do not power up while coiled for over 30 minutes. This may lead to overheating and damage.

FX3D
Mounting Clip Installs

1 | Layout FX3D in desired configuration then mark path on mounting surface.

2 | Drill mounting holes.

3 | Screw down the mounting clip.

4 | Push narrow section of tape between the LEDs into the plastic clip.
