

# Floor Mounting

## Installation Instructions

### ⚠ SAFETY PRECAUTIONS

The mounting means provided with this luminaire has not been evaluated for reliability. If installed where failure of the mounting could cause injury to persons or damage to property below, supplemental means of securement should be considered.

Products should be installed and serviced by a qualified, licensed electrician in accordance with applicable local and national electrical safety codes.

Never install within 10 ft or less from the nearest edge of a pool, spa, fountain, or similar location.

Never use currents or voltages that are not compatible.

Never modify or take apart Kelvix components beyond instructions or the warranty will be void.

Connect power feed to appropriate power source or controls.

Ensure all electrical connections are insulated and secure before applying power.

Remove from power source immediately if any damage is found in the LED strip or cabling.

- 1 | Measure and cut channel, disposable cover, and lens to length.

- 2 | Temporarily secure in place using glue, screws, double-sided tape, or mortar. Make note of how you are going to wire the LED strip.

- 3 | Attach disposable cover and endcap(s) to channel.

- 4 | Apply mortar up to edge of the channel. Finish flooring (tile, stone, or wood).

- 5 | Remove disposable cover from channel.

- 6 | Install LED strip into channel and route wire back to remote power supply location.

- 7 | Install lens into channel.

- 8 | Power on LED strip.
