

Connecting the dots to brilliant lighting.

Made in America Compliance

To whom it may concern:

The Gallant (USALV96-DIM) power supply is a manufactured electrical product that undergoes final assembly in the United States. This letter is intended to describe how this product qualifies for compliance with applicable domestic preference requirements under the Build America, Buy America Act (BABA) and the Buy American Act (BAA).

BABA:

For infrastructure projects subject to the Build America, Buy America Act, it is our good-faith understanding that the Gallant (USALV96-DIM) power supply meets the definition of a “manufactured product produced in the United States” under Section 70912(6)(B)(ii) and the implementing guidance in 2 CFR part 184.

BAA:

For procurements subject to the Buy American Act, we understand that the Gallant (USALV96-DIM) power supply meets the domestic-content requirements applicable to a “domestic end product” under 41 U.S.C. §§ 8301–8305 and its implementation in FAR Subpart 25.1 and clause 52.225-1.

Determining the applicability of these laws, and any waivers or exceptions, to a specific project or funding source remains the responsibility of the project owner, recipient, and contracting agency.

Additional information on the Build America, Buy America Act is available on HUD’s “Build America, Buy America Act (BABA)” resource page—[hud.gov](https://www.hud.gov).

Additional information on the Buy American Act is available in FAR Subpart 25.1 – Buy American—[acquisition.gov](https://www.acquisition.gov).
